

Corporate Recovery

It's certainly not news that many businesses are now facing a major challenge - SURVIVAL!

Survival depends on whether the management can successfully overcome operational and financial difficulties. And of course, the sooner management address the key issues facing them the quicker they can turn around their business and face the future with optimism.

Our more than 30 years' of successful experience in the business world places us in an ideal position to help businesses achieve profitability, refocus their strategic direction and restore competitiveness by:

- Identifying the underlying problems and issues.
- Assessing the viability of the current business model.
- Preparing and agreeing a recovery solution with management.
- Reorganising financial structure with credit institutions.
- Assisting in the implementation of the recovery solution.
- Monitoring and reporting on post recovery performance.

Of course it can be very difficult to stay focused on addressing the huge challenges facing your business. So rest assured, we're committed to working with you every step of the way in implementing your recovery plan.

We would be delighted to meet with you, without obligation and in complete confidence, to discuss your current business difficulties or any other matters that require expert and professional advice.
